Ukraine (women) takes the lead

The changement in lead by women, something which was in the air for some times already, finally occurred!

Russia was held by China on 1,5:1,5, while Ukraine smashed USA with 2,5:0,5 and so these two teams changed their positions in the standing and will continue to chase each other in their run for gold medal.

Once famous Georgian team took the profit from such scenario and is now on third place. They scored 2,5 points against Hungary.

Bulgaria, Romania, Armenia and France made the same result against Vietnam, Cuba, Germany and Poland. Lithuania won 2:1 against Slovenia.

Italy «A» lost to Canada 0,5:2,5, but Italy «B» took all three points against Yemen.

The situation on the top is now: Ukraine 21,0, Russia 20,5, Georgia 19,0, China and Bulgaria 18,5, Armenia 18,0, USA, Romania and France 17,5 points and so on.

Top pairings for round ten are: Ukraine-Georgia, Russia-Bulgaria, Armenia-China, France-USA, Croatia-Romania and Greece-Lithuania.

By men Armenia keeps his lead with an iron grip. Yesterday they defeated Ukraine with 2,5:1,5. A decisive win was scored by Sargissian on board number four. Other games ended in a draw but after a long fight. Their lead is absolutely deserved.

Russia lost again, this time to France. Their weak point was again Rublevsky who lost his third game already, this time against Fressinet. Other games were drawn. France is on third place now.

It happens very rarely, maybe just once in the history of modern Olympiads, that the match number three in round nine ends with 4:0! This was the case yesterday, when China took all the points from Georgia. They are now second, one point behind Armenia.

USA and Czech Republic played 2:2, as did India and Uzbekistan. Cuba won 2,5:1,5 again-

st Germany and is close to the top again. This group was joined by Slovenia as well. They won 3:1 against Slovakia. Netherlands continues its drop. This time they lost to Croatia because of the second loss in a row by Nijboer. A couple of days ago he was a hero, now he is «Pedro».

Italian derby ended in 2:2 after a big fight. While Italy «B» lost to Kazakhstan 1,5:2,5. However, they are still half a point ahead of other two Italian teams.

The situation on the top is now: Armenia 26,5, China 25,5, France 24,0, Ukraine, Russia and USA 23,5, Czech Republic, Cuba and Slovenia 23,0, India, Germany and Uzbekistan 22,5 and so on.

The top pairings for round ten are: Armenia-China, France-USA, Ukraine-Russia, Czech Republic-Slovenia, Cuba-India and Uzbekistan-Germany. First three matches will be spectacular, I'm pretty sure, and if Armenia doesn't lose today, I am ready to bet on their final victory.

In the run for «Nona Gaprindashvili» trophy most successful teams were yesterday China with 5,5 points, followed by France and Croatia (again!) with 5,0 points.

There is still one team with a perfect score, at least according to the match points. I am sure that by now you guess already that it is UKRAINE (women)!!!

Antidoping controls

Today, May 30th, sees the start of anti-doping controls at the Chess Olympiad.

The doctors of CONI (the Italian Sports Committee), the IOC (Olympic Committee) and FIDE (the international chess federation) will draw lots to decide who will be controlled.

The first drawing of lots will decide which tournament, the male or female Olympiad, will be controlled. The second will decide which match, the third which board and the last which player (white or black).

For reasons of privacy the names of the players involved in the control will be kept secret. The Arbiter will inform the player selected only at the end of his game. Controls will be carried out today and tomorrow and from Friday to Sunday. Two players each day, 8 players the last day. It is possible that in the last round the players of the teams that reach the medals will be controlled.

On the contrary of what we wrote yesterday the antidoping control is based on urine test and not on blood test.

The Italian teams

Italy, as host country, has had the right to appoint two teams in the general tournament. Italy A sees the top Italian players according to the last national championship, that is GM Michele Godena, GM Carlos Garcia Palermo, IM Fabio Bellini, IM Carlo D'Amore, IM Ennio Arlandi and IM Daniel Contin.

Italy B players, instead, partly come from a selection tournament held in Frascati, partly were directly chosen by Italian Chess Federation (FSI) among the most promising young players: it is composed by FM Niccolo Ronchetti, FM Daniele Vocaturo, FM Sabino Brunello, FM Denis Rombaldoni, FM Christian Cacco and FM Daniele Genocchio. Following an already established tradition, the host region too could take part in the Olympiads, so that the Province of Turin sponsored a team of young players resident or student in the province. This team, Italy C, sees IM Spartaco Sarno, FM Pierluigi Piscopo, FM Roberto Mongranzini,

FM Folco Castaldo, FM Fabrizio Molina and Alberto Pulito.

Also in the woman tournament two Italian teams participate: Italy A has unquestionably the strongest players in the field, IM Elena Sedina, WGM Olga Zimina, WFM Eleonora Ambrosi and Maria Vincenza Santurbano, while Italy B composition was decided by the selection tournament

of Frascati and see the participation of Maria Teresa Arnetta, Veronika Goi, Marianna Chierici and Marina Brunello. The latter team has only young players, the mascotte being Marina Brunello, aged 11.

Italian teams has raised great interest among spectators, and in every round a crowd of onlookers gather as close to the chessboards as possible to follow the games live. This is especially remarkable in a country where the popularity of chess is not as high as in other European countries and there isn't a tradition of frequent top level chess events. But these Olympiad seems to have broken the rules, and also the web activity in the newsgroups shows an extraordinary and unprecedented interest. Chess will never be same in Italy, after Turin Olympiads!

Chess in Perù

The first Grandmaster of Perù was Esteban Canal in the years of Capablanca, while the present greatest and most famous grandmaster is Julio Granda Zuniga, rated 2631, who is the top board player. There are many talented masters around 2100 elo. "We have many young promising players and every year in continental championship we had won many medals" said Luciana Mjoralles international women master. Ingrid Allianza, an upcoming junior, was the silver medalist under 18 and under 20 pan American champion.

We have brought in Turin a very young team and the men team is doing well; women team have 10.5 points and we will have to play all matches here since we have no reserve players. We hope that Fide will help Perù to improve the chess situation and to organize many tournaments. There is a lot of enthusiasm from club players while the most popular sport is soccer and surfing. Chess is becoming popular and we are also looking for invitations from other countries.

We are hoping that we will get foreign coaches to work with our talented players and we found Italy, especially Turin, a nice place. Lima is the capital city and most chess players are from there.

See you in Dresden!

The Chess Olympiad 2008 will take place in Dresden, the beautiful capital of Saxony, in the south east of Germany.

In the Lingotto Oval you can find an information booth which presents the cultural and sport metropolis Dresden and details about the preparation of the next Chess Olympiad.

The Sports Mayor of the Capital Dresden, Mr Winfried Lehmann, will receive the symbolic baton as next city for the Chess Olympiad 2008 during the Closing Ceremony on 4th June 2006

Dresden 2008 is already highly interesting now in 2006. Long before the Chess Olympiad is held, numerous top-grade chess events will take place.

The Women-Chess-Cup will be played according to system of this year's Football World Cup in Germany from 6 to 9 July 2006. One player is invited from each country which has qualified for the World Cup. There are 8 preliminary groups according to those of the World Cup. A round robin tournament will be played in order to determine the first two players per group. Thereafter a knock out system will be used. The venue is the Shopping Centre Karstadt Dresden.

Concerning the special feature of this event many international Woman Grandmasters have given their acceptance of participation like Susan Polgar (USA), Monika Socko (Poland), Marie Sebag (France), Elisabeth Pähtz (Germany). The total prize fund amounts to 15,000 €. 32 women compete to become the champion in a classic World Cup style.

From 2 to 5 November 10 twin cities of Dresden like Coventry, Brazzaville, Ohio, Florence are honouring the city's 800 year-old history by playing 800 games for the Lord Mayor's Cup. Every city sends out one team consisting of one female, one male and one junior (U20).

From 2nd to 16th April 2007 the European Individual Championships for Women and Men are being held in Dresden. This date has now been confirmed by the Organizing

Committee of the Chess Olympiad 2008 which is preparing the Euro 2007 together with the German Chess Federation. Europe's 500 best female and male players will challenge each other over the Easter weekend at the International Congress Centre Dresden the venue of the Chess Olympiad 2008. For the players, this event is not only about qualifying for the World Chess Federation FIDE world championships, but also about competing for the highest amount of prize money ever awarded at an individual European championship. The prize fund amounts to more than € 200,000 with the best female and male players in Europe determined to win their share.

In the photo Dirk Jordan, General Manager of Dresden, received from Roberto Rivello, member of Organising Committee of Turin, the anthem of Turin Olympiad composed by Ennio Morricone.

The special programme section in Euro 2007 contains something for everyone: On 7th April a Youth Tournament is being held, while on 9th April a Tandem Tournament is planned. One special highlight is the Blitz Tournament to be held on 15th April. Here the amateurs can test themselves against the real Euro 2007 chess professionals.

The Chess Olympiad 2008 is being held directly on the banks of the river Elbe in Dresden's old city centre. Architectural and historical pearls such as the Church of Our Lady (Frauenkirche), Semper Opera, Residenz Castle, Brühlsche Terrasse – the city's famous Baroque ensemble of buildings – are but a few short steps away from the event in "Florence on the Elbe" as Dresden is called. And every visitor to Dresden immediately feels the unique sense of hospitality and deep commitment to culture demonstrated by the people of Dresden.

Further information about the events is available at www.Dresden2008.org.

An artist at the Olympiad

As you enter the Oval you spot them immediately: the huge canvases of chess scenes alternate with posters showing the names and advertising of sponsors, but they stand out for their originality. The artist is French and wants to be known only by his artistic acronym, LJM. In a painting, he says, if you don't want to leave the canvas blank there are as many combinations as there are in a game of chess. The basic idea was to paint a series of pictures on the subject of chess-players; on this basis it was logical to decide to produce 64 compositions, in practice one for each square on the chessboard. Compositions that can live singly or in groups. It all required three years work and the result is the presentation at the Oval which is in effect

the artist's first personal exhibition. The pictures are in various different formats and can be admired on LJM's stand within that of Le Due Torri. LJM began painting in 1966, with Cezanne as his inspiration; his first approach to chess goes back to three years later, but in practice it is since 2001 that he changed the technique that led him to the project on display at the Oval. It has been written of him: LJM is a humanist, an artist who one century after Cubism has found an answer to the questions of his time. The characters who play chess in his pictures are ourselves, they are our image concealed in his walk through the world. Man can use chess to escape destruction and solitude.
